Town of Kennebunk, Maine

WHEREAS, by a duly authorized and properly called vote at the Town of Kennebunk's Town Meeting held on February 21, 2008, a certain lot or parcel of land to be known as the Terrace Green project and consisting of approximately 101 acres, lying on the generally southerly side of the Alfred Road (and adjacent thereto) and running down to the Mousam River, designated initially as four separate lots by the Town Assessor as Map 14, Lot 7; Map 16, Lot 3; Map 17, Lot 11; and Map 23, Lot 35; and being more specifically described in deeds recorded in the York County Registry of Deeds in Book 14793, Pages, 832, 833, 838, 841, 844, 847 and 850 was rezoned by vote of said Town Meeting; and

WHEREAS, subsequent to that Town Meeting vote, three of those four lots were split by their owners, such that three additional map and lot designations by the Town Assessor became necessary, to wit: a new Map 14, Lot 23 (formerly part of Map 14, Lot 7); a new Map 14, Lot 22 (formerly part of Map 17, Lot 11) and a new Map 14, Lot 24 (formerly part of Map 16, Lot 3), (collectively "Three New Lots") but said Three New Lots still remain part of, and subject to, the February 21, 2008 re-zoning;

NOW, THEREFORE, to remove any ambiguity as to the zoning designation of said three new lots, the Board of Selectmen hereby authorizes and directs the Town Clerk to attach this Order and then to record a copy of the same in the York County Registry of Deeds to provide record notice that said Three New Lots are, as of the date of this Order, still subject to, and benefited by, the above-referenced re-zoning as a part of the Terrace Green Contract Zone.

Terrace Green Contract Zone

TERRACE GREEN CONTRACT ZONE

A. Purpose

The purpose of the Terrace Green Contract Zone is to allow for a clustered, single-family detached housing project with an affordable single-family detached housing component to be developed in the least sensitive areas of a parcel currently split by the West Kennebunk Village Residential Zone (WKVR) and the Rural Residential Zone (RR), Resource Protection (RP) and Shoreland Overlay Zone. The WKVR Zone is located in the lower terrace of the property which allows for higher density and no cluster provision. This land area is more sensitive to development and located along the Mousam River. The majority of the property is zoned RR which allows lower density, but requires cluster development for subdivisions. This land area contains previously developed areas that are more suitable for higher density cluster developments.

This Contract Zone will permit a higher density development in the upper terrace, while retaining approximately 74% of the land in open space, with most of it to be set aside in a conservation easement. In addition, seven affordable homes with ownership will be constructed and public water will be extended to the site.
